## PHYSICIAN'S BIOACTIVE OIL ROSEHIP

#### MAY BE OF ASSISTANCE IN:

- Sore muscles from housework, over activity or ageing
- Sore muscles from mild inflammation
- Sore tendons and ligaments from sprain, strain or overuse
- Joint pain and stiffness due to mild inflammation
- Improving endurance
- Faster recovery after surgery
- Reduction of Age Spots and Pigmentation
- Reduction of Scars

A physician or surgeon's opinion is recommended for any mechanical/structural disease. This product is not intended to diagnose, treat, cure or prevent any disease.

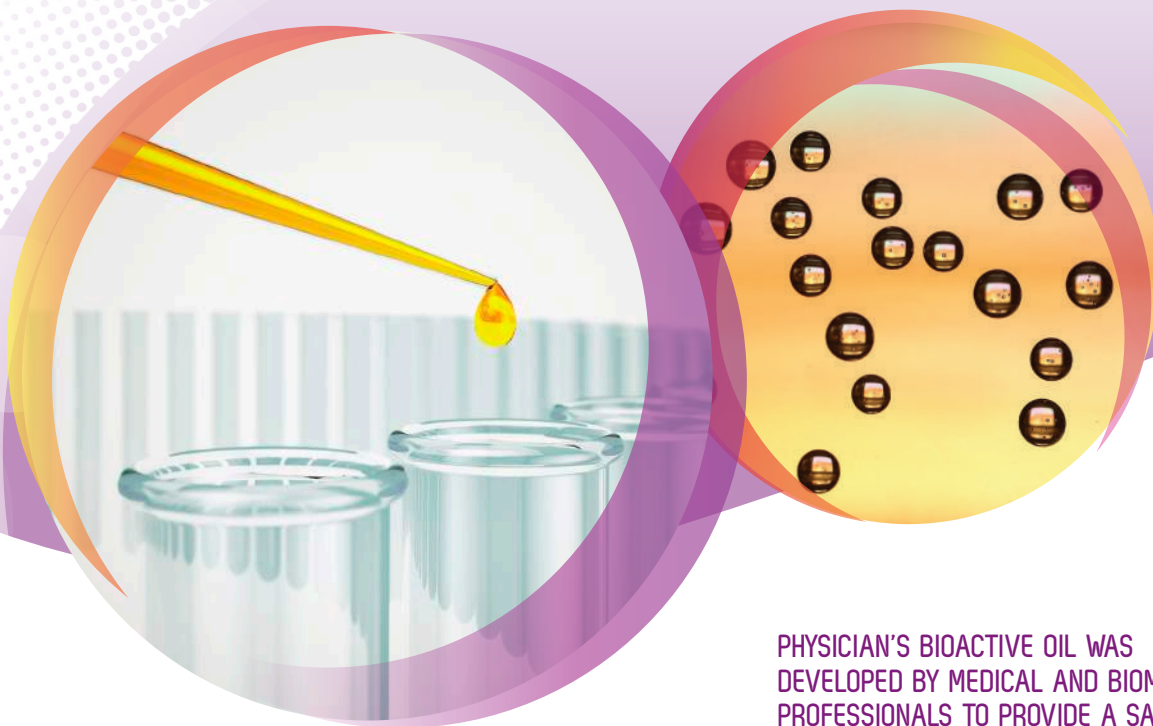

## PHYSICIAN'S BIOACTIVE OIL

### WITH ROSEHIP OIL FOR JOINT HEALTH

Physician's Bioactive Oil for Sports is scientifically formulated to target aches and pains due to mild inflammation and over activity.

DEEP AND EFFECTIVE ABSORPTION  
MICRONIZED MOLECULAR TECHNOLOGY

## REVITALIZE AND RE-ENERGIZE

PHYSICIAN'S BIOACTIVE OIL WAS DEVELOPED BY MEDICAL AND BIOMEDICAL PROFESSIONALS TO PROVIDE A SAFE, EFFECTIVE AND RAPIDLY ACTING NATURAL ALTERNATIVE FOR MILD PAIN CONDITIONS.

#### PHYSICIAN'S BIOACTIVE OILS ARE:

- Made of natural plant based ingredients
- Free of harmful chemicals and drugs
- Clinically proven to be effective in athletes
- Hypo-allergenic
- Professional Strength
- Rapidly absorbed
- Australian formulated and manufactured
- Suitable for all ages; supervision recommended with use on babies and children

Micronized Molecular Technology is used to enhance delivery and absorption of micronutrients and the powerful antioxidant, Astaxanthin.

This meticulously formulated oil is micronized and pressurized into an enclosed can. This reduces the risk of contamination and also keeps the temperature of the oil cool, helping retain the antioxidant activity of Astaxanthin. Only the highest grade oils and active ingredients are used. A reservoir of micronized micronutrients and antioxidants in the skin becomes readily available for natural tissue repair and recovery.

#### WHAT IS ASTAXANTHIN?

Astaxanthin is a powerful antioxidant with anti-inflammatory properties. It is derived from a natural marine algae, *Haematococcus Pluvialis*.

Its antioxidant activity is over 500 times that of Vitamin C and E. It has also been shown to have beneficial effects on the skin such as reduction of pigmentation, stretchmarks and wrinkles.

Oxidation occurs in all cells and creates unstable molecules called free radicals. Free radicals attack cells by stealing an electron to become stable again. The cell DNA becomes damaged in the process, leading to disease and ageing. Antioxidants help prevent damage caused by oxidation and excessive free radicals.
